

Thank you for purchasing the Traveler-ER USB drive. To use your new drive for the first time please refer to the following instructions:

Plug your new Traveler-ER into any of the USB ports on your computer.

**On a Windows PC:**

Click on "Computer" ("My Computer" for Windows 2000/XP) through the Windows "Start" menu. Find and select the "Traveler-ER" drive in your drive list. You will now see the contents of the drive. Double click on "Click to run on Windows." Follow the instructions that appear on your screen.

**On a Mac:**

Wait for the Traveler-ER drive image to appear on your desktop. Double click on the image once it appears. You will now see the contents of the drive. Double click on "Click to run on a Mac." Follow the instructions appear on your screen.
